# Cash Register System

The words of the diagram are probably look like too small, (I can't make it larger in limited space.) but I think you can zoom in the page of PDF file.

I am using ArgoUML to draw this diagram. This tool is pretty good for me. it is easily to draw everything what I need. However, the limitation I realised that it cannot draw multiple inheritance by just one arrow. For example,
I can do this way for multiple inheritance in ArgoUML:

But, I cannot do the way like:

Another limitation is that I try to export the diagram as a picture file, but I don't know why I cannot be opened once I exported it as .jpg file.
